

# How to Apply Your Budget

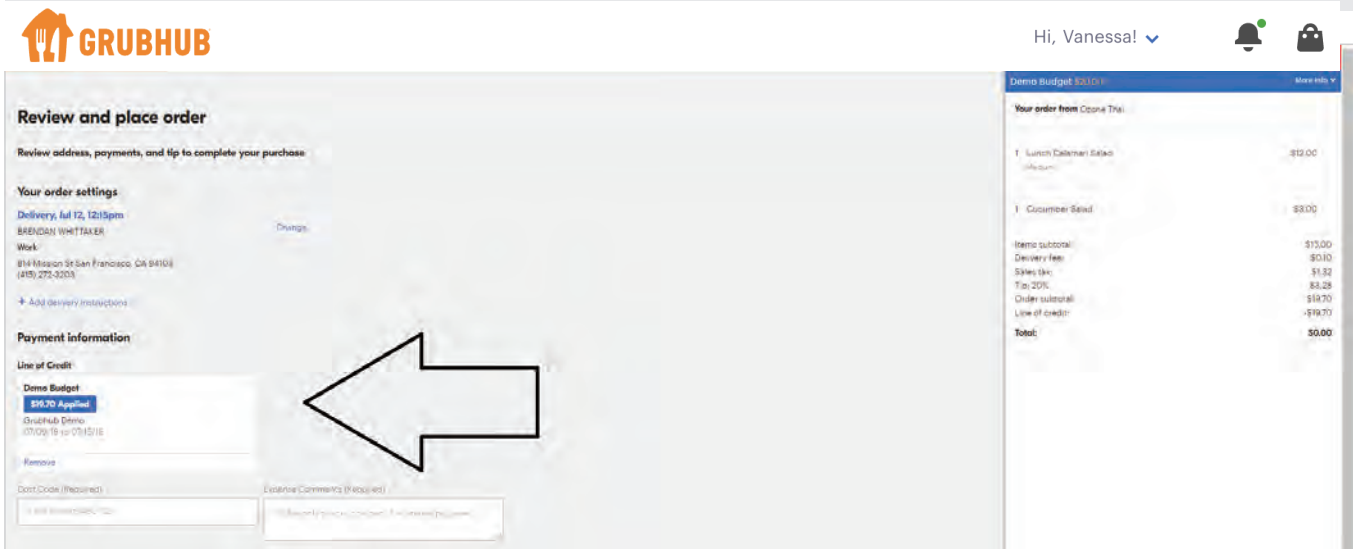

There are 2 ways to apply your budget:

- ① When you are logged in and on the homepage, below the restaurant search area, you can click “Apply.”

- ② You can also apply it when reviewing your order under the “Pay with” section.

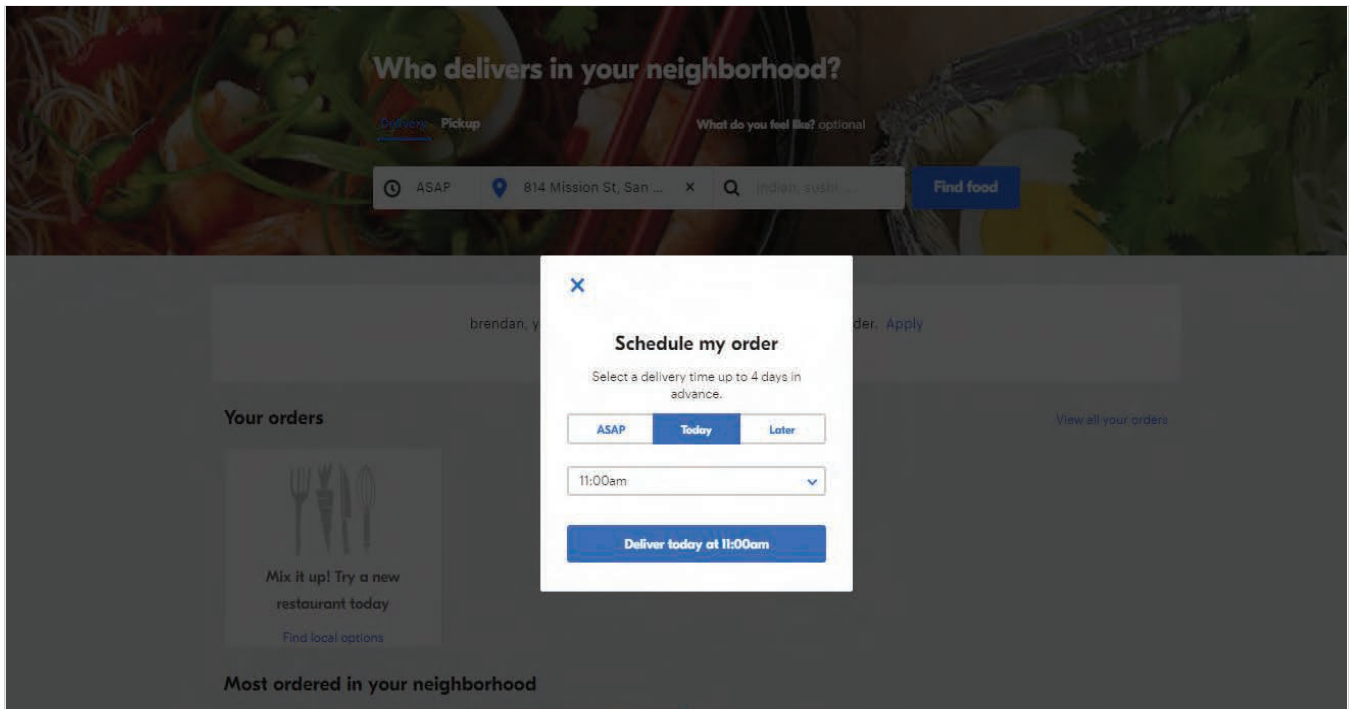

Please note: Budget only appears if the desired delivery time falls within the time frame of the permission.

# How to Place Future Orders

To place an order for delivery in the future, click "ASAP" to the left of the address field to change the delivery time.

- A pop up appears to customize delivery time (up to 72 hours in advance).

Please note: Orders for a future delivery must be placed 2 to 72 hours in advance. For example, if you want lunch at 12 pm, please order before 10 am.
